

PURPOSE: To establish a committee on archives

INTRODUCED BY: Jose Brevil

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE

SECTION ONE (DEFINITIONS):

Archive: a collection of historical documents or records providing information about a place, institution, or group of people.

SECTION TWO (REASONING):

The Senate should be a very well-organized body. Since there have been disparities in senate organization between each year, I believe that a more uniform framework should be established. The duty to create, implement, and upkeep this new framework would rest with the archives committee. This bill is not meant to tell the committee what program that they must implement, rather this bill allows the committee to thoroughly research and eventually conclude on how the senate can be more organized for documentation and archive purposes.

SECTION THREE (SPECIFIC CHANGE):

On page fifteen (15) of the SGA Constitution (PDF) under the section “Senatorial Officers” the following would be changed to:

4) Committees regarding residential life, mental health, **archives**, and academics, respectively, shall consist of one SGA officer serving as chairperson and two Senators serving as members to be elected by their peers. A Senator may only serve on one Committee. The powers vested in the Committee include:

A. Working towards a goal, doing so by gathering information through means such as polling the student body and communicating with MSMS administration

B. Being knowledgeable about the student body in their assigned committee’s oversight

C. Holding meetings as they fit, with at least one meeting required per month to discuss bill ideas and results from polling the student body

D. Presenting monthly Senate reports to inform Senators of progress toward goals, such as disclosing polling data

E. In the case of the committee on archives, ensure that the Senate keeps up with records and introduced legislation and assist the SGA Secretary if he/she requires assistance related to archives.

F. Committees may be dismantled for the remainder of the school year if the Senate deems it necessary through a three-fourths majority vote.

5) Elections shall be administered through secret ballot, and the Senator receiving simple majority shall obtain the position. Committee members shall be elected every quarter.
