

PURPOSE: To put in writing that senators cannot write constitutional amendments until the second semester unless they've served a full-year term.

INTRODUCED BY: Lucianna Marquez

**BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND
SCIENCE**

SECTION ONE (DEFINITIONS):

Constitutional Amendment: A bill altering the Student Government Association's constitution.

Once passed, it goes into effect without the need for administrative approval.

SECTION TWO (REASONING):

It is a common practice now that senators cannot pass constitutional amendments until the second semester of the school year. This is because new senators, juniors and seniors alike, don't know the proceedings and workings of Senate yet, and making uninformed changes is just a bad idea. However, this isn't yet in writing. Defining this in the Constitution would prevent wasted discussion time on this, as we had at the beginning of the school year, when it is generally accepted that constitutional amendments cannot be created until the second semester.

SECTION THREE (SPECIFIC CHANGE):

On page 21 of the SGA Constitution, under Article VII – Maintenance of the Constitution, the following will be added:

Section 1 Amendments

The SGA Constitution being a document that is internal to SGA, the SGA Senate may amend the Constitution by presenting a Bill that is passed with a two-thirds majority vote. These amendments need not be approved by the

administration before taking effect. Senators may not present amendments until the second semester of the academic year, or they have served a full-year term.
