

PURPOSE: Mandate a five-day review period for surveillance camera footage following reported incidents, ensuring prompt and thorough investigations

INTRODUCED BY: Laykin Dixon

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE

SECTION ONE (REASONING): Following a concerning incident where a timely review of surveillance footage was neglected, resulting in its deletion prior to investigation, it has become evident that establishing a mandated five-day review period is crucial. This measure aims to prevent the loss of valuable evidence, ensuring that investigations are conducted promptly and thoroughly, thereby promoting accountability and effective response to reported incidents.

SECTION TWO (SPECIFIC CHANGES):

On page 104 of the Student Handbook (PDF page 109) under the section “Safety and Security,” the following would be changed to:

Safety and security are everyone's concern and responsibility. MSMS is keenly aware of providing information and guidance to students in this regard, and students are expected to develop an attitude of “community watch” and to report all concerns. MSMS is committed to providing the safest environment for all students and employees. To assist with this effort, security cameras are placed at strategic locations in and outside MSMS buildings. **Following an event where the camera footage should be checked, there will ~~should~~ be a five-day period for investigation. By the end of the period, students should be informed of the findings of the investigation.**
