

PURPOSE: To propose all Goen residents be able to get one excuse every 30 days on account of menstrual cramps, providing the parent emails the school saying they're aware their child will be absent.

INTRODUCED BY: Domini Jha

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE SENATE:

SECTION ONE (REASONING):

This resolution is meant to allow Goen residents to skip the unnecessary process of going to the health center for an excuse due to menstrual cramps. Currently, if students struggle with menstrual pain, they have to walk to the health center to get an excuse. However, this process isn't necessary because students aren't required to prove they're on their periods to the medical center's staff. All that happens is you tell the staff member on duty that you are dealing with cramps, and they give you an excuse.

From my knowledge, going to the health center also costs money. Menstrual cramps are nothing new, and students should not have to pay for their monthly pain to be validated. This issue, coupled with the pain that it takes to walk to the health center when some MSMS students struggle with painful menstrual issues, should flag the attention of the MSMS administration as MSMS should strive to make its student body feel comfortable.

SECTION 2 (PROPOSED ACTION):

This could easily be remedied by providing Mrs. Nisa with the authority to grant an excuse every 30 days on account of menstrual pains.

SECTION 3 (APPENDIX):

*All responses are anonymous

Response 1 (current student):

"Personally, I can go through really discomfoting and painful periods some months. I like this idea because then I can actually rest instead of having to deal with walking which is painful to the medical center or have to deal with the stress of getting an excuse."
