

PURPOSE: To implement a section in the handbook dedicated to residential evaluations and to establish a rubric for “Res-Life” grades

INTRODUCED BY: Lucianna Marquez

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE

SECTION ONE (DEFINITIONS):

Residential Evaluations: Grades given quarterly to students regarding wellness, Res-Life, and work service.

General Level I Violations: Level One violations listed as Level One (General) in the student handbook.

Level I Violation Exceptions: Level One violations that are treated more severely and have different consequences; they are listed in the student handbook as Level One (Exception).

General Level II Violations: Level Two violations listed as Level Two (General) in the student handbook.

Level II Violation Exceptions: Level Two violations that are treated more severely and have different consequences; they are listed in the student handbook as Level Two (Exception).

SECTION TWO (REASONING):

The first section of this bill aims to establish a new section under the Student Affairs tab of the handbook. It will add a Part D under Student Affairs, titled “Residential Evaluation.” This bill will also incorporate the “Res-Life evaluation” section under Part D, and later legislation will work to add wellness and work service evaluation rubrics under this section. This section will help clarify the requirements that earn unsatisfactory/satisfactory/outstanding grades on Residential Evaluations.

Throughout the COVID-19 virtual year, the residential evaluation system was briefly switched from unsatisfactory/satisfactory/outstanding to pass/fail. Students were graded on work service and wellness according to the pass/fail system; this switch caused confusion among staff that graded Residential Evaluations during the first quarter. Also, Res-Life grades were also a newly established system. This bill aims to reestablish the unsatisfactory/satisfactory/outstanding grading rubric for Residential evaluation and clarify what qualifies as unsatisfactory/satisfactory/outstanding rating for Res-Life grades.

SECTION THREE (SPECIFIC CHANGE):

After page 101 of the Student Handbook (PDF page 106) under the tab “Student Affairs” add the following section:

PART D: Residential Evaluation

During the student's two year stay at MSMS, students will be evaluated on different aspects of their Residential Living; these aspects include Res-Life, Wellness, and Work Service. These evaluations will be given in the form of unsatisfactory, satisfactory, or outstanding grades. The evaluations will affect the privilege plans that students can receive.

Res Life Evaluation

Res-Life evaluations will be given based on the number of disciplinary infractions received inside the residential halls or involving residential life and behavior toward residential living staff.

Discipline Points:

Point values are assigned to disciplinary infractions within the residential hall or involving residential life staff, and these point values will dictate the Res-Life grade that students receive.

Students will begin with 0 Res-Life discipline points
