

PURPOSE: Students should not be penalized for school-related general sign-outs.

INTRODUCED BY: Jacqueline Smith

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE SENATE:

SECTION ONE (REASONING):

If a student attends an academic event (such as literary events) on Friday and a Saturday morning sports practice (both off campus) and they have the “Extended Plan”, permitting 3 sign-outs Friday-Sunday. They may face difficulty signing out twice more through the weekend to get groceries or run necessary errands.

Many Juniors may not even have Extended Plan and may be in fall sports such as soccer, so their privileges shouldn’t be limited if they have to attend events to maintain standing in a team or need extra credit for classes.

This was a real experience three weeks ago for some tennis players because they had off-campus practice, and then the girls had to sign back in to pick up other students to go to a team lunch and later needed to run errands all on the same day. RAs nearly rejected the request to leave for the last time with hesitation even though they had been at school-related events rather than abusing personal sign-outs.
