

PURPOSE: To reduce the amount of time in advance that students must request use of the kitchen from 72 hours to 24 hours.

INTRODUCED BY: Morgan Smith

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE SENATE:

SECTION ONE (REASONING):

Being able to use the dorm kitchens is a valuable resource to students. However, having to request the kitchens three days in advance makes them impractical for students to use. To allow students to adequately take advantage of this resource, MSMS should reduce the notice needed for use of the kitchen from 72 hours to 24 hours. This would still give resident staff enough time to make arrangements for a resident assistant to be present at the time of kitchen use, while significantly reducing inconvenience for students.

SECTION TWO (RESPONSES):

Response 1 (Anonymous):

“It would make it more convenient because sometimes you don’t know [your plans]. 24 hours is enough time.”

Response 2 (Anonymous):

“Sometimes you just need to spontaneously bake some cookies.”
