

PURPOSE: To allow for Junior Level III's to diminish to a Level II at the end of the year with the recommendation of faculty, student life staff, and administration.

INTRODUCED BY: Ramse Jefferson

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE SENATE

SECTION ONE (REASONING):

At MSMS, if a student gets a Level III, they are given many consequences that hurt the student severely. Some of these include, but are not limited to, the inability for emissary, SGA officer roles, most privilege plans, and some club positions. These consequences hurt the students in many ways but can also ruin many chances for college admissions.

While these consequences are just in some cases, many of the lessons that MSMS teaches is growth. In this case, this proposal would allow for students to grow in many ways. Students would need recommendations from faculty members, meaning that they would have to grow in the classroom and residence hall. They would also need recommendation from administration, meaning that the student would need to grow personally in the eyes of the administration. These recommendations would happen during the evaluation days that happen during the end of the nine weeks. This would allow the student to benefit from the bad situation that the student was involved in, and would furthermore, allow students to show to colleges that the student was able to grow. Students should not be given a life-changing punishment for one stupid mistake that they made at MSMS.
