

PURPOSE: To validate athletic commitment to transfer as credits for wellness requirements

INTRODUCED BY: Rushyendranath Reddy Nalamalapu

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE

SECTION ONE (DEFINITIONS):

Wellness: The Mississippi School for Mathematics and Science (MSMS) Wellness Program requires each student to participate in a minimum number of physical activity hours and minimum attendance in wellness seminars as directed by the coordinator for this program and explained during orientation.

SECTION TWO (REASONING):

While a student is at MSMS, they are required to maintain the wellness requirements as listed in the Student Handbook. Some students who actively participate in an Athletics Team under a supervision of a coach are subject to the same sign-out and sign-in protocols as an individual who does not participate in a guided or organized training regimen.

In order to simplify the process for MSMS residents, there shall be a specific bypass permitted by the coach of the respective team to waive a particular students wellness requirement for a given term. It is important to note that the coach must physically sign for his confirmation that the student has met the fifteen hours of cumulative strenuous or active physical wellness. This certificate of completion shall waive the wellness requirement for the student during the given term.

SECTION THREE (SPECIFIC CHANGE):

On page 106 of the Student Handbook under the section **STUDENT AFFAIRS – RESIDENCE LIFE** under **WELLNESS**. The following addition will be made as shown on this corresponding page.

On page 113 of the Student Handbook under the sections THE “O” PLAN the following change was made in the box for wellness requirement on the following page.

WELLNESS

The links among nutrition, physical activity, and learning are well-documented. MSMS is committed to providing a school environment that enhances learning and the development of lifelong wellness practices. To ensure that all MSMS students have the opportunity to develop the knowledge and skills necessary to make nutritious food choices and enjoyable physical activity a valuable part of daily life, they are required to participate in a wellness component as a requirement for graduation. The wellness program requirements include a combination of wellness seminars and physical activity **either on a recorded card or executive approval from an athletic coordinator**. Wellness grades will have an impact on eligibility for privilege plans, and failure to maintain a satisfactory "S" grade in wellness will be a consideration when extending invitations to return. Details regarding the wellness component will be provided during class orientations.
