

PURPOSE: Allow more privileges to high-achieving students

INTRODUCED BY: Laykin Dixon

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE

SECTION ONE (REASONING):

By allowing high-achieving students to maintain a C grade if it remains above 75, we are acknowledging the multifaceted nature of academic performance. While maintaining high standards is crucial, it's also important to recognize that a single grade does not always accurately reflect a student's overall capabilities or effort. Allowing for some flexibility in this regard not only acknowledges the diverse learning styles and challenges students face but also encourages a more holistic approach to education. By accommodating students who may excel in certain areas but struggle in others, we create a system that fosters growth and resilience rather than penalizing students for isolated setbacks. This adjustment not only supports the well-being of individual students but also contributes to a more inclusive and equitable educational environment where all learners can thrive.
