

PURPOSE: To allow each MSMS senior class to paint a mural on a designated section of wall inside the academic buildings.

INTRODUCED BY: Annadele Beckman

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE SENATE:

SECTION ONE (REASONING):

As creativity is one of MSMS's core ideals, each graduating class should be able to paint a mural on a designated section of a wall in the academic buildings to commemorate the time they spent here at school.

MSMS's buildings can sometimes be a little lackluster in terms of aesthetics. Painting on the walls will draw some attention away from the building's datedness and offer an inviting environment. MSMS classes can be stressful as they are already and to alleviate that stress students feel, even by a little, would be a great service to them. The white walls currently offer no comfort, while murals can foster mental well-being.

Creating murals would also incentivize aspiring MSMS students even more to attend because they'll be able to see the creativity displayed by the school. They would not be discouraged from attending believing they'll have to compromise their art to attend. It would make the potential choice between MSMS and some sister school known for art less difficult.

SECTION TWO (LOGISTICS):

There are many places on campus that are ideal for a mural aside from walls in the hallways. Many walls in Shackelford Hall are bare such as the walls next to the elevator. The bottom of the stairs leading to the second floor of Hooper Hall is a perfect canvas and would be very eye-catching to potential students touring the halls. Another good spot for a mural is the wall opposite of the current office of Mr. Linder on the second floor of Hooper. Additionally, the stairwell at the back of Hooper is also an excellent place. Finally, teachers could be able to request a mural inside their classrooms. The only place full murals shouldn't be painted within the academic buildings is in the hallway of the second floor of Hooper as that area is where the research posters of MSMS students are displayed and honored. Though painted decorations surrounding each poster would still be acceptable.

Throughout the school year, students will be able to submit ideas for the class mural to be approved by admin. The mural will be designed by a student and will be voted on by the class.

As for the actual painting there are a few different options. The final idea will be chosen by a rank-choice vote by the student body facilitated and overseen by Student Senate.

1. There will be a sign-up sheet for each part that students can volunteer for.
2. Admin will hire professional mural painters.
3. The painting class will primarily be responsible for the mural.
4. Art club will be primarily responsible for the mural.

SECTION THREE (APPENDIX):

Response 1: Anonymous

“Coming back senior year and seeing all the walls painted white really reminded me of a psych ward, so I’d love to see it painted and kind of remind me of home.”

Response 2: Anonymous

“I felt like I had to give up music somewhat to come here so I think it’d be nice to think someone else won’t need to worry about giving up their pursuit of art as much.”

Response 3: Anonymous

“We should be doing everything we can to beautify our spaces and make MSMS more appealing to potential students.”
