

PURPOSE: To reinstate MSMS' participation in SLAMT (Schools of Louisiana, Alabama, Arkansas, Mississippi, Texas)

INTRODUCED BY: Senator Lotwala

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE SENATE:

SECTION ONE (REASONING):

SLAMT is a long-standing competition among the sister/brother schools in a multitude of sports like billiards, volleyball, ultimate frisbee, basketball, flag football, soccer, and tennis. It is participated by the Louisiana School for Mathematics, Science, and the Arts; Alabama School for Mathematics and Science; Arkansas School for Mathematics, Science, and the Arts; Mississippi School for Mathematics and Science, and the Texas School for Mathematics and Science. Prior to the COVID shutdown MSMS participated in the yearly SLAMT event. SLAMT continues to happen with the last time being on 2/24/2024 hosted by LSMSA.

Participating in more events with our sister/brother schools could prove to benefit the students of MSMS. It provides students with more contact with the students and faculty that can help support MSMS students. The way to do this is to contact the sister schools in order to find out the date and location of next year's SLAMT competition.

SECTION TWO (APPENDIX):

Response 1 (Anonymous):

"Because of the experience we had at ASMSA I realized like how secluded we are from our sister schools. SLAMT would give us the opportunity to meet the other schools to give us insight into how to improve our school. It would give us more opportunities to meet back with our sister schools so that we can do even more events together."

Response 2 (Anonymous):

"I think that not participating in SLAMT is a missed opportunity to meet more people who are on the same path as us."

Response 3 (Anonymous)

"The idea of SLAMT is a great idea. Being able to intermingle with other students like us is something that shouldn't be untapped. Along with that it is important for students to share traditions and different ideas with their sister/brother schools."
