

PURPOSE: To make sure MSMS students fully know their grade in a class before taking its respective final exam by having teachers submit all of their grades in PowerSchool by the end of tutorial day

INTRODUCED BY: Sai Narla

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE SENATE:

SECTION ONE (REASONING):

Final exam week can be one of the most stressful times of the MSMS academic year. Being unaware of your final grade before entering exam week can substantially increase anxiety levels among MSMS students as they are going into the test blindly. They will not know their final grade in the class until the last day of the semester.

To reduce this unnecessary stress, it would be beneficial to have teachers submit all their grades prior to the final exam into PowerSchool by the end of tutorial day. Many teachers at MSMS already strive to have all their grades in before the end of tutorial day, but some did not. The resolution will place the deadline of submitting grades other than the final exam at the end of tutorial day to make this policy consistent among all departments at MSMS.

SECTION TWO (APPENDIX):

Response 1 (Anonymous):

“It was very stressful not knowing the total impact our exams would play on our overall grade, considering we were unaware of the final grades before studying for the exam.”

Response 2 (Anonymous):

“For many MSMS students, their final grade after exams will determine if they are invited back or graduate, so they have added stress when it comes to exams.”

Response 3 (Anonymous):

“Last fall, I was really stressed out going into my physics exam without knowing how well I needed to do to pass. Now, I am scared that that same situation might be happening again.”
