

**PURPOSE:** To restrict the parking lots of Goen & Frazer dorms to MSMS students only.

**INTRODUCED BY:** Roman Luckett

**BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE SENATE:**

**SECTION ONE (REASONING):**

Having a vehicle at MSMS is a huge convenience- being able to go anywhere you want, whenever (mostly) you want, provides a great deal of autonomy and helps expose students to a typical college life. However, there are some inconveniences associated with vehicle ownership at MSMS, namely parking.

Students who wish to park on campus have three realistic options: the parking spaces at their respective dormitories, the lot in front of the library, and the gravel lot behind Frazer & ~~Kingcannon-Kincannon~~. When you're hauling your backpack, laundry, etc. to your car, the most convenient lot is obviously the spaces at your dorm. Unfortunately, parking spaces around your dorm may be occupied by college students.

I personally have arrived at MSMS on Sundays and driven around Frazer only to find every parking space occupied by cars with W tags, leaving me to lug all my bags from the library lot/gravel lot. It's not fair that I'm forced to park elsewhere because college students filled up their lots before we did.

**SECTION TWO (PROPOSED ACTION):**

MSMS administration would reach out to MUW police to enforce the MSMS-only parking areas outlined in the appendix map. Cars without an MSMS car tag are not allowed in these spaces, and any car without an MSMS tag in these spaces would be given a parking ticket.

MSMS administration would also reach out to MUW to notify all college students about the change, perhaps in the form of an email.

At the very least, MSMS admin would begin discussion with MUW to gain jurisdiction over the parking spaces by our dorms.

**SECTION THREE (APPENDIX):**

A map outlining the proposed affected areas. All parking spaces inside the red boxes are reserved for MSMS students only.
