

PURPOSE: ~~My resolution propose~~ To propose a canned food drive at the beginning of every school year to give back to Columbus, most conveniently during move-in.

INTRODUCED BY: Grayson Garrick

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND SCIENCE SENATE:

SECTION ONE (REASONING):

We spend 18 months here over the course of our time with MSMS; a canned food drive is a way for MSMS to students and parents to rally together to give back to our city. Although Columbus does house MSMS, the poverty and lack of food is apparent throughout the city. Two of our pillars are service and community, and this canned food drive is a representation of both of them. The first one, this year, raised 221 cans and 6 bags of rice, and was a massive success. We then donated to Helping Hands, a local non-profit organization in Columbus.

SECTION TWO (PROPOSED ACTION):

This event will be held on both move-in days every year. This would be headed by the Class Officer Liaison with the help of SCO. The Liaison should plan the event and communicate with Ms. Latoya, and any other administration deemed necessary. The Liaison should prepare boxes and lay out the parameters of what to donate, for example, cans of food and rice. The SCO officers should promote the food drive and make sure both the junior and senior classes know about it. Once the donations are concluded, in a reasonable timeframe, the Liaison will deliver the cans to a non-profit of their choosing local to Columbus.

SECTION THREE (APPENDIX):

“I think the people who run United Way would be happy and supportive for the school’s help, and it’s good for students to donate to local nonprofits and for MSMS to help the community”- Maya Jacobsen, SCO Secretary.

“I think this would be the start to something great. Giving back is important, and I think the way parents and even students rallied to ensure this drive was a success made a huge difference.” - Ms. Latoya

“I am proud of our students and the way everyone came together to bless Helping Hands of Columbus. They were very appreciative, so in the end, it was a win-win for everyone. service and community!”-Ms. Latoya
